CROSSWALK MEDICARE PROVIDER/SUPPLIER to HEALTHCARE PROVIDER TAXONOMY

May 11, 2017

Prepared by:

CMS/ Center for Program Integrity/Provider Enrollment Oversight Group/Division Enrollment Operations

This crosswalk links the types of providers and suppliers who are eligible to apply for enrollment in the Medicare Program with the appropriate Healthcare Provider Taxonomy Codes. This crosswalk includes the Medicare Specialty Codes for those provider/supplier types who have Medicare Specialty Codes. The Healthcare Provider Taxonomy Code Set is available from the Washington Publishing Company (www.wpc-edi.com) and is maintained by the National Uniform Claim Committee (www.nucc.org). The code set is updated twice a year, with the updates being effective April 1 and October 1 of each year. This document reflects Healthcare Provider Taxonomy Codes effective for use on October 1, 2013.

When changes are made to Medicare provider enrollment requirements, the Medicare Specialty Codes, or the Healthcare Provider Taxonomy Code Set, this document may need to be revised.

NOTE: This document does not alter existing Medicare claims preparation, processing, or payment instructions, nor does it alter existing Medicare provider enrollment requirements or policies.

^[1] Medicare no longer enrolls this provider type.

^[2] This is an arrangement whereby immunization services are rendered by health care providers who are under contract to the entity/individual who is enrolled in Medicare as a Mass Immunization Roster Biller. The Healthcare Provider Taxonomy Code(s) would be that (those) of the health care provider(s) who render the immunization services.

^[3] Medicare carriers use Specialty Code 87 for Pharmacies when processing prescription drugs that are paid through the Medicare Physician Fee Schedule. However, the description for Specialty Code 87 remains "All Other Suppliers."

- [4] Because the Medicare Provider Type "Physician/Undefined Physician Type" applies to physicians, "Unknown Supplier/Provider Specialty" applies to other than physicians. Because Medicare does not enroll every non-physician supplier/provider type in the Healthcare Provider Taxonomy Code Set. In truth, this Medicare Provider Type would link to every Healthcare Provider Taxonomy Code (except those that describe physicians) that is listed in this document. We do not list them here because doing so would greatly increase the size of this document.
- [5] Because the Medicare Provider Type indicates that the provider/supplier is a Physician, we have linked this to the most generic Allopathic & Osteopathic Physicians classification. It could technically link to every Allopathic & Osteopathic Physician.

- [11] Medicare specialty code designation is for Part B DMEPOS purposes.
- [12] There is no linkage to specific Healthcare Provider Taxonomy Codes because an Indian Health Service facility can be various provider types/classifications.
